Welcome to the Ummahti Family

Assalamu Alaikum wa Rahmatullahi wa Barakatuh

Peace, mercy, and blessings of Allah be upon you

Thank you for choosing the Ummahti Smart Adhan Clock. We are truly honoured that you have welcomed our product into your home, and we pray that it serves as a beautiful reminder of your daily prayers and connection with Allah.

At Ummahti, we believe that technology should enhance our spiritual lives, not distract from them. Your new Adhan Clock was designed with this principle at heart — combining the timeless beauty of Islamic tradition with the convenience of modern innovation. Whether it's the gentle call of the adhan filling your home, the serene recitation of Quran, or simply a glance at the prayer times displayed on your wall, we hope this device brings peace and barakah to your daily routine.

We have poured our hearts into creating something meaningful for the Ummah, and your support means the world to us. If you ever need assistance, please don't hesitate to reach out — we're here to help.

This manual is also available in multiple languages at ummahti.net/manual.

May Allah bless your home with peace, happiness, and endless barakah.

Barakallahu feekum — بَارِكُ اللهُ فِيكُمْ

May Allah bless you

With warmth and gratitude,

The Ummahti Team

Quick Start Guide

Full manual available at: ummahti.net/manual

Welcome to your Ummahti Smart Adhan Clock! Follow these steps to get started.

Step 1: Power On

Connect the power cable and press the button on top of the device.

Step 2: Select Language & Timezone

Choose your preferred language and select the city nearest to you for accurate time display.

Step 3: Connect to WiFi

Select your home WiFi network and enter your password.

Step 4: Download the Ummahti App

- Android: Search "Ummahti" on Google Play
- iOS: Search "Ummahti" on the App Store

Step 5: Create an Account

Open the app and tap **...More** → **Register** to create your free Ummahti account.

Step 6: Link Your Clock

Go to **...More** → **Settings** → **Adhan Clock** → **Link New Device**. Enter the 6-digit code shown on your clock.

Step 7: Set Up Prayer Times

Is your mosque on Ummahti?

Check by going to **...More** → **Settings** → **Mosque** and search for your mosque. Found it? Select it and you're all set — your clock will display your mosque's official prayer times.

Mosque not listed yet?

No problem! Go to **...More** → **Settings** → **Prayer Times** → **Location** and select your city. You can also choose from over 20 calculation methods in **...More** → **Settings** → **Prayer Times** → **Calculation Method** to match your region or preference.

We're actively expanding our mosque network — encourage your mosque to join Ummahti!

✓ **Done! Your clock is now ready. Enjoy accurate prayer times in your home.**

Snelstartgids

Volledige handleiding beschikbaar op: ummahti.net/manual

Welkom bij je Ummahti Smart Adhan Clock! Volg deze stappen om aan de slag te gaan.

Stap 1: Inschakelen

Sluit de stroomkabel aan en druk op de knop bovenop het apparaat.

Stap 2: Taal & Tijdzone instellen

Kies je voorkeurstaal en selecteer de dichtstbijzijnde stad voor de juiste tijdweergave.

Stap 3: Verbinden met WiFi

Selecteer je WiFi-netwerk en voer het wachtwoord in.

Stap 4: Download de Ummahti-app

- Android: Zoek "Ummahti" in de Google Play Store
- iOS: Zoek "Ummahti" in de App Store

Stap 5: Maak een account aan

Open de app en tik op **...Meer** → **Registreren** om een gratis Ummahti-account aan te maken.

Stap 6: Koppel je klok

Ga naar **...Meer** → **Instellingen** → **Adhan Clock** → **Nieuw apparaat koppelen**. Voer de 6-cijferige code in die op je klok verschijnt.

Stap 7: Stel je gebedstijden in

Staat jouw moskee in Ummahti?

Controleer dit via **...Meer** → **Instellingen** → **Moskee** en zoek naar jouw moskee. Gevonden? Selecteer deze en je bent klaar — je klok toont automatisch de officiële gebedstijden van jouw moskee.

Moskee nog niet beschikbaar?

Geen probleem! Ga naar **...Meer** → **Instellingen** → **Gebedstijden** → **Locatie** en selecteer je stad. Je kunt ook kiezen uit meer dan 20 berekeningsmethodes via **...Meer** → **Instellingen** → **Gebedstijden** → **Berekeningsmethode**.

We breiden ons moskeenetwerk continu uit — tip jouw moskee om zich aan te sluiten bij Ummahti!

✓ **Klaar! Je klok is nu gereed. Geniet van nauwkeurige gebedstijden in huis.**

Guide de démarrage rapide

Manuel complet disponible sur : ummahti.net/manual

Bienvenue ! Merci d'avoir choisi l'Ummahti Smart Adhan Clock. Suivez ces étapes pour commencer.

Étape 1 : Mise en marche

Branchez le câble d'alimentation et appuyez sur le bouton situé sur le dessus de l'appareil.

Étape 2 : Langue et fuseau horaire

Choisissez votre langue et sélectionnez la ville la plus proche pour un affichage précis de l'heure.

Étape 3 : Connexion au WiFi

Sélectionnez votre réseau WiFi et saisissez votre mot de passe.

Étape 4 : Téléchargez l'application Ummahti

- Android : Recherchez « Ummahti » sur Google Play
- iOS : Recherchez « Ummahti » sur l'App Store

Étape 5 : Créez un compte

Ouvrez l'application et appuyez sur **...Plus** → **S'inscrire** pour créer votre compte Ummahti gratuit.

Étape 6 : Associez votre horloge

Accédez à **...Plus** → **Paramètres** → **Adhan Clock** → **Associer un nouvel appareil**. Saisissez le code à 6 chiffres affiché sur votre horloge.

Étape 7 : Configurez vos horaires de prière

Votre mosquée est-elle sur Ummahti ?

Vérifiez en allant dans **...Plus** → **Paramètres** → **Mosquée** et recherchez votre mosquée. Vous l'avez trouvée ? Sélectionnez-la et c'est terminé — votre horloge affichera les horaires officiels de votre mosquée.

Mosquée pas encore disponible ?

Pas de souci ! Allez dans **...Plus** → **Paramètres** → **Horaires de prière** → **Localisation** et sélectionnez votre ville. Vous pouvez également choisir parmi plus de 20 méthodes de calcul via **...Plus** → **Paramètres** → **Horaires de prière** → **Méthode de calcul**.

Nous élargissons continuellement notre réseau de mosquées — invitez votre mosquée à rejoindre Ummahti !

✓ **Terminé ! Votre horloge est prête. Profitez d'horaires de prière précis chez vous.**

1. Getting Started

If you are just starting to use your Ummahti Smart Adhan Clock:

1. Insert the power supply to start the Smart Adhan Clock;
2. Follow the guide on the screen to start setting up the clock step by step;
3. Complete the setup and start enjoying accurate prayer times.

Ummahti Smart Adhan Clock

The Ummahti Smart Adhan Clock displays accurate prayer times, Islamic duas, and the Hijri date in a beautiful, customizable interface. Choose from 20 display themes to match your space. Add your own photos for a truly special experience.

The touchscreen operation is easy to use, making prayer time management smooth and convenient, providing you with a high-quality Islamic experience.

Ummahti App

The Ummahti app supports rich functions on Android and iOS systems, allowing for easy control of your clock anytime and anywhere. No matter where you are, you can adjust settings, upload background photos, or configure prayer times in real-time.

Download Ummahti App

Search for and download the Ummahti app in the app store:

- **Android:** Search for "Ummahti" on Google Play and download the app.
- **iOS:** Search for "Ummahti" on the Apple Store and download the app.

2. First-Time Setup

Your clock needs an internet connection to fetch accurate prayer times, sync settings, and receive updates. You also need the Ummahti app to link the device.

Powering On

Power on your clock by connecting it to a power source and pressing the on button on top of the device.

The clock will guide you through the onboarding steps where you select your language, timezone, and set up your Wi-Fi network.

Language

The Ummahti Smart Adhan Clock is available in multiple languages:

- English
- French
- Dutch
- Spanish
- Arabic

Timezone

Set the timezone of your clock for accurate time and date display. Choose the city nearest to you.

WiFi Connection

Connect to your Wi-Fi network to connect the clock to the internet.

Auto Update

The device will automatically check for any updates after it connects to your WiFi network for the first time. If any updates are available, they will be installed immediately. This is a relatively short process. During updating, your device's screen may turn dark for 30 seconds.

Device Linking

Linking connects your clock to your Ummahti account, enabling all your settings to sync seamlessly between the app and your clock. The Ummahti app gives you an easy way to control your Smart Adhan Clock in real time.

Link via the Ummahti App (Recommended)

1. Open the **Ummahti app** on your smartphone
2. Sign in to your account (or create one)
3. Go to **...More** → **Settings** → **Adhan Clock**
4. Tap **Link New Device**
5. Your clock will display a **6-digit code**

6. Enter this code in the app
7. Your device will link automatically within seconds

What Happens After Linking

Once linked, your clock will:

- Download your location and prayer time settings
- Apply your preferred display theme
- Load your background images
- Configure your adhan preferences

All changes you make in the app will sync to your clock in real-time.

3. Setting Up Prayer Times

Accurate prayer times depend on your precise location. Ummahti supports location-based prayer times and mosque-based prayer times.

3.1 Location-Based Prayer Times

For location-based prayer times, you can choose to use your app's location for prayer time calculations or set up a custom clock location. When you link your device, it automatically uses the location set in your Ummahti app.

Use Your App Location

To update:

1. Open the **Ummahti app**
2. Go to **...More** → **Settings** → **Prayer Times** → **Location**
3. Search for your city or use GPS detection
4. Your clock will update automatically

Set a Custom Clock Location

If your clock is in a different location than your phone:

1. Open the **Ummahti app**
2. Go to **...More** → **Settings** → **Adhan Clock** → **Location Override**
3. Enable **Use different location for Adhan Clock**
4. Enter your clock's location
5. Changes sync immediately

Choosing a Calculation Method

Different regions use different methods to calculate prayer times. The clock supports 22 internationally recognized methods. To set your preferred calculation method, go to **...More** → **Settings** → **Prayer Settings** → **Calculation Method**.

Fine-Tuning Prayer Times

Need to adjust a specific prayer time by a few minutes? You can fine-tune each prayer individually.

From the Clock:

1. Tap the settings icon
2. Go to **Prayer Settings**
3. Select **Time Adjustments**
4. Use the **+** and **-** buttons to adjust each prayer
5. Changes apply immediately

From the App:

1. Open **...More** → **Settings** → **Adhan Clock**
2. Tap **Prayer Time Adjustments**
3. Adjust each prayer as needed

Each prayer can be adjusted from **-30 to +30 minutes**. Tap **Reset All** to return all prayers to their calculated times.

3.2 Mosque-Based Prayer Times

Connect your clock to a local mosque to display their official prayer times. Currently, only a select number of mosques in the Netherlands are available. Talk to your mosque administrator to register for free with Ummahti and add their prayer times to our app and Adhan Clock.

Subscribing to a Mosque

1. Open the **Ummahti app**
2. Go to **...More** → **Settings** → **Mosque**
3. Search for your local mosque
4. Tap to select it
5. Ensure **Use mosque times for Adhan Clock** is enabled

Benefits of Mosque Integration

- Display the exact prayer times announced by your local mosque
- Stay synchronized with your community
- Receive mosque announcements and calendar events (if enabled)

Switching Back to Location-Based Times

To return to calculated prayer times:

1. Open **...More** → **Settings** → **Mosque** in the app
2. Tap **Clear Selection** or disable **Use mosque times**

4. Choosing a Display Theme

Your clock offers beautiful display themes to match your space and preferences. You can choose between themes with customizable background images or basic themes without customizable backgrounds. Changing a theme can be done through the Ummahti app or directly on the Adhan Clock.

Changing Your Theme

From the App:

1. Open **...More** → **Settings** → **Adhan Clock** → **Display**
2. Browse the template gallery with previews
3. Tap your preferred theme
4. Changes apply instantly

From the Clock:

1. Swipe from the right side of the display to show the quick settings sidebar
2. Tap the current theme name
3. Scroll through the list of installed themes
4. Tap to select

5. Customizing the Accent Color

Personalize your display with a custom accent color that highlights prayer times and UI elements.

Choosing a Color

From the App:

1. Open **...More** → **Settings** → **Adhan Clock** → **Display**
2. Tap **Accent Color**
3. Use the color wheel or select from preset swatches
4. Preview updates in real-time

From the Clock:

1. Swipe from the right side of the display to show the quick settings sidebar
2. Tap **Accent Color**
3. Select from the color picker

Popular Choices

- **Emerald Green** (Default): Classic Islamic aesthetic
- **Deep Blue**: Calm and serene
- **Gold**: Elegant and warm
- **Burgundy**: Rich and sophisticated

6. Background Images & Slideshows

Transform your clock into a stunning display with custom background images. You can use any image you want by uploading them through the Ummahti app. A maximum of 20 images is allowed in the image slideshow.

Uploading Images

Uploading images can be done from the Ummahti app:

1. Open **...More** → **Settings** → **Adhan Clock** → **Backgrounds**
2. Tap **Upload Images**
3. Select up to 10 images from your gallery
4. Images are automatically optimized and uploaded

Managing Your Collection

- **Select images:** Tap to add/remove from your slideshow (maximum 20)
- **Delete images:** Press the trashcan button on any user-uploaded image to remove it
- **Default images:** Browse and select from our curated collection

Slideshow Settings

Setting	Options
Slideshow Duration	10 seconds to 5 minutes per image
Smart Fill	Fill screen with blurred edges for images not matching the theme's ratio

Image Tips

- Landscape images work best on widescreen themes; portrait images work best on portrait themes
- High resolution images look best
- Nature scenes, family pictures, Islamic architecture, and geometric patterns are popular
- Maximum file size: 5MB per image

7. Auto-Dim & Night Brightness

The Ummahti Smart Adhan Clock can adjust its brightness at night with automatic brightness adjustment.

Enabling Auto-Dim

From the App:

1. Open **...More** → **Settings** → **Adhan Clock** → **Display**
2. Tap **Night Brightness**
3. Enable the feature
4. Configure your schedule

From the Clock:

1. Swipe from the right side of the display to show the quick settings sidebar
2. Tap **Settings**
3. Select **Display Settings** in the left menu
4. Scroll down to enable night brightness

Schedule Options

You can trigger brightness changes based on:

Prayer Times:

- Dim after Isha prayer
- Restore brightness at Fajr
- Add offset (e.g., 30 minutes after Isha)

Clock Times:

- Dim at a specific time (e.g., 10:00 PM)
- Restore at a specific time (e.g., 6:00 AM)

Brightness Levels

Setting	Range	Recommended
Day Brightness	10–100%	80–100%
Night Brightness	10–100%	20–40%

The clock remembers your schedule and adjusts automatically, even after power outages.

8. Quran Playback

Your clock can play beautiful Quran recitation with translations.

Accessing the Quran Player

1. Swipe from the right side of the display to show the quick settings sidebar
2. Tap the **Quran** icon on your clock's display
3. The full-screen Quran player opens

Selecting a Reciter

1. Swipe from the right side of the display to show the quick settings sidebar
2. Tap **Settings**
3. Select **Quran Settings** in the left menu
4. Tap to select and listen to a preview

Playback Controls

Control	Function
Play/Pause	Start or pause recitation
Previous	Go to previous  yah
Next	Skip to next  yah

Translations

The player displays the Arabic text with your chosen translation. Supported languages:

- English
- French
- Spanish
- Dutch

Navigating Suwar

- Scroll the list on the right side with all the suwar (chapters)
- Tap a surah to load and begin playback

9. Adhan Settings

Customize how your clock announces prayer times.

Choosing a Muaddhin

1. Open the **Ummahti app**
2. Go to **...More** → **Settings** → **Adhan Clock** → **Adhan Audio**
3. Browse available reciters with preview
4. Tap the play button to hear a sample
5. Select your preferred muaddhin

Adhan Schedule

The adhan plays automatically at each prayer time based on your location settings, mosque times (if enabled), or manual adjustments.

10. Language Settings

Your clock supports multiple languages for the interface and content.

Supported Languages

- English
- Arabic
- French
- Spanish
- Dutch

Changing the Language

From the App:

The app automatically uses your system language. If the system language is not supported, it defaults to English. You can always change the language in the app. Changes to app language will sync to linked Adhan Clocks.

1. Open **...More** → **Language**
2. Select your preferred language
3. The selected language is automatically saved and synced

From the Clock:

1. Swipe from the right side of the display to show the quick settings sidebar
2. Tap **Settings**
3. Select **Regional** in the left menu
4. Select your preferred language

5. The interface updates immediately

Arabic Mode Features

When Arabic is selected:

- Interface displays right-to-left
- Numbers show in Eastern Arabic numerals (٠ ١ ٢ ٣ ٤ ٥ ٦ ٧ ٨ ٩)
- Prayer names display in Arabic
- Hijri date formatting adjusts

11. Device Updates

Your clock receives updates automatically to add features and improvements.

How Updates Work

- Updates download in the background over WiFi
- Installation happens automatically when idle
- Your settings are preserved after updates
- A brief restart may occur during installation

Checking for Updates Manually

1. Open **Settings** → **Device** on your clock
2. Tap **Check for Updates**
3. View the last check time and current version

Update Benefits

Regular updates include:

- New display themes
- Performance improvements
- Bug fixes
- New features

12. Physical Controls & Sidebar

Power Button

Long-press the power button to access power options:

Option	Function
Power Off	Completely shut down the device
Reboot	Restart the device
Cancel	Return to the display

The menu auto-dismisses after 15 seconds of inactivity.

Volume Buttons

Press the volume buttons to access quick controls:

- **Volume slider:** Adjust adhan and Quran volume

Sidebar

A sidebar for common uses like brightness, volume, and theme changes can be accessed by swiping from the right side of the display. Pressing anywhere on the screen outside of the sidebar closes it.

13. Troubleshooting

Clock Won't Connect to WiFi

1. Ensure your router is broadcasting a WiFi network
2. Move the clock closer to your router
3. Verify the password is correct
4. Try forgetting the network and reconnecting
5. Restart both the clock and your router

Linking Code Expired

Linking codes expire after 5 minutes. Tap **Refresh** on the clock to generate a new code.

Prayer Times Seem Incorrect

1. Verify your location is set correctly
2. Check your calculation method matches your region's standard
3. Ensure the clock has the correct date and time (syncs automatically)
4. Check for any manual time adjustments

Images Not Displaying

1. Ensure images are uploaded successfully (check progress)
2. Verify you've selected images for the slideshow (up to 20)
3. Wait for the current image cycle to complete
4. Check your internet connection for cloud-stored images

Clock Frozen or Unresponsive

1. Long-press the power button to access the reboot option
2. If unresponsive, disconnect power for 10 seconds, then reconnect

App Not Syncing with Clock

1. Ensure both devices are connected to the internet
2. Sign out and back into the Ummahti app
3. Verify the device is still linked (check Linked Devices)
4. Restart both the app and the clock

Support

For additional assistance:
